

# If You Are Sick or Caring for Someone

Updated Aug. 11, 2022

If you test positive and are an older adult or someone who is at [high risk](#) of getting very sick from COVID-19, [treatment may be available](#). Contact a healthcare provider right away after a positive test to determine if you are eligible, even if your symptoms are mild right now. You can also visit a [Test to Treat location](#) and, if eligible, receive a prescription from a provider. Don't delay: Treatment must be started within the first few days to be effective.
