International Travel to and from the United States

Updated Aug. 24, 2022

ALL TRAVELERS

This page is for all international travelers including U.S. citizens, U.S. nationals, U.S. lawful permanent residents, immigrants, and non-U.S. citizens who are not U.S. immigrants.

What You Need to Know

- Protect yourself and others from COVID-19:
 - Get up to date with your COVID-19 vaccines before you travel.
 - Consider getting tested before travel.
 - Follow CDC's recommendations for wearing masks in travel and public transportation settings.
 - Get tested after arrival.
- Countries may have their own entry and exit requirements
- Non-U.S. citizen, non-U.S. immigrants: You must show proof of being fully vaccinated with the primary series of an accepted COVID-19 vaccine before you board your flight to the United States. Only limited exceptions apply.

Travel Assessment

A tool to help you know the requirements to board a flight to the United States.

Land Travel

For information about COVID-19 requirements for land travel and at ferry terminals, visit the U.S. Department of Homeland Security's Fact Sheet: Guidance for Travelers to Enter the U.S. at Land Ports of Entry and Ferry Terminals.

Before You Leave the United States

Make sure to plan ahead:

- Get up to date with your COVID-19 vaccines before you travel.
 - Find out when you can get your booster and where to get a vaccine or booster.
 - COVID-19 vaccines are effective at protecting people—especially those who are boosted— from getting seriously ill, being hospitalized, and even dying.
- Follow all requirements of transportation operators (such as airlines, cruise lines, buses) and any requirements,

including mask wearing, proof of vaccination, of testing at your destination 🗀 .

- Requirements in other countries may differ from U.S. requirements. If you do not follow your destination's requirements, you may be denied entry and required to return to the United States.
- If you have a weakened immune system or are at increased risk for severe disease, take multiple prevention steps to provide additional layers of protection from COVID-19 even if you are up to date with your COVID-19 vaccines.
 - Talk to your healthcare provider about your risk before travel and consider delaying travel to areas with high COVID-19 levels. Even if you are up to date, you should know what precautions to take.
- If you will be visiting someone who is at higher risk of getting very sick from COVID-19, learn how to protect them.

Testing

RECOMMENDED

- Consider getting tested with a viral test as close to the time of departure as possible (no more than 3 days) **before** travel.
 - Make sure you know your test results before travel.
 - Don't travel if your test result is positive.
 - ∘ Find a U.S. COVID-19 testing location near you ☐ or use a self-test.
 - If you already had COVID-19 within the past 90 days, see specific testing recommendations.

Can I travel if ...?

I am sick with or tested positive for COVID-19 and am recommended to isolate.

- Do NOT travel.
- Follow recommendations for isolation.

I have ended isolation but still need to continue wearing my mask per CDC's guidance.

- Do not travel on public transportation such as airplanes, buses, and trains if you will not be able to wear a high-quality mask or respirator when around others indoors for the full duration of your trip.
- If you travel, wear a high-quality mask or respirator the entire time you are around others indoors.
- Traveling by private vehicle (if possible) can lower the chances of spreading COVID-19 to others.

I was exposed to a person with COVID-19 in the past 10 days.

- Follow CDC guidance, including getting tested at least 5 full days after your last exposure.
- Do not travel on public transportation such as airplanes, buses, and trains if you will not be able to wear a high-quality mask or respirator when around others indoors for the full duration of your trip.
- If you travel, wear a high-quality mask or respirator the entire time you are around others indoors.
- Traveling by private vehicle (if possible) can lower the chances of spreading COVID-19 to others.

During Travel

Protect Yourself and Others

RECOMMENDED

- Follow CDC's recommendations for wearing masks in travel and public transportation settings.
- Follow recommendations for protecting yourself and others.
- Follow all recommendations and requirements at your destination 🖸 .

Before You Travel to the United States

Contact Information – ALL Travelers

REQUIRED

All air passengers to the United States are required to provide contact information to airlines before boarding flights to the United States.

- This strengthens a travel process already in place to rapidly identify and contact people in the U.S. who may have been exposed to a communicable disease, such as COVID-19.
- Access to travelers' contact information will allow U.S. federal, state, territorial and local health
 departments, and agencies to share appropriate health and public health information necessary to help
 keep the public safe.

Testing – ALL Travelers

RECOMMENDED

- Consider getting tested with a viral test as close to the time of departure as possible (no more than 3 days) **before** travel.
 - If you already had COVID-19 within the past 90 days, see specific testing recommendations.
- Make sure you know your test results before travel.
 - Don't travel if your test result is positive.

Non-U.S. Citizen, Non-U.S. Immigrants

Proof of Vaccination

REQUIRED

Air Travel: All non-U.S. citizen, non-U.S. immigrants traveling to the United States by air are required to show proof of being fully vaccinated against COVID-19. Only limited exceptions apply. Learn more about this requirement and accepted vaccines.

If you are not fully vaccinated and allowed to travel to the United States by air through an exception, you will be required to sign an attestation (legal statement) before you board your flight to the United States stating you meet the exception. Depending on the type of exception, you may also have to state you have arranged to take certain protective measures.

For more information see Requirement for Proof of COVID-19 Vaccination for Air Passengers.

After Arrival in the United States

ALL Travelers

RECOMMENDED

- Get tested with a viral test 3-5 days after arrival.
 - ∘ Find a U.S. COVID-19 testing location near you ☐ or use a self-test.
 - If you already had COVID-19 within the past 90 days, see specific testing recommendations.
- Monitor yourself for COVID-19 symptoms.
- Follow additional guidance if you know you were exposed to a person with COVID-19.
- Follow all state, tribal, local and territorial recommendations or requirements after arrival.
- If you are going to be around someone who is at higher risk of getting very sick with COVID-19, consider additional precautions.

If Your Test Result is Positive or You Develop COVID-19 Symptoms

Isolate yourself to protect others from getting infected. Learn what to do and when it is safe to be around others.

Non-U.S. Citizen, Non-U.S. immigrants who are **not fully vaccinated** and allowed to travel to the United States by air through an exception **must** follow requirements of the attestation they signed before boarding their flight. For more information, see Requirement for Proof of COVID-19 Vaccination for Air Passengers.

Summary of Recent Changes

Updates as of April 18, 2022

• As a result of a court order, effective immediately and as of April 18, 2022, CDC's January 29, 2021 Order requiring masks on public transportation conveyances and at transportation hubs is no longer in effect. Therefore, CDC will not enforce the Order. CDC continues to recommend that people wear high-quality masks in indoor public transportation settings at this time.
